SERIAL No. 1

Dated, Bangalore, the 30th October 1911

From P. S. Achyuta Rao Esq.,
~~LT. COL. JOHN SMYTH, M.D., I.M.S.,~~
Sanitary Commissioner to the Government of
His Highness the Maharaja of Mysore,
BANGALORE.

To

C.S. Balasundaram Iyer Esq., B.A.,
Secretary to the Government of His Highness the
Maharaja of Mysore, General and Revenue Departments,
BANGALORE

Sir,

I have the honor to forward herewith the accompanyir extracts from letters Nos. 499 & 712 dated the 23rd December 1910 and 20th March 1911 respectively from the District Sanitary Officer, Kadur District, on the subject of vesting th Deputy Inspector of Vaccination with duties connected with gemeral sanitation in the District. I am of opinion that in view of the very unsatisfactory state of public health in the Kadur District and the varied items of sanitary work to be attended to, the appointment of an Assistant to the District Sanitary Officer is very desirable and would be conducive to better efficiency.

2. The present Deputy Inspector of Vaccination, M. Girimaji Rao, is one of the 5 men that were sent to Madras for training in sanitation but who on account of his failure in Minor Sanitary Engineering was, on his return from training posted to the Chitaldrug District in his former position as Deputy Inspector. He appeared for the last Examination in Minor Sanitary Engineering but failed owing, it is reported, to serious illness during the period of Examination. In consideration of the fact that the failure

failure this time was due to causes beyond his control I propose appointing him as a District Sanitary Assistant on Rs. 80/- per mensem subject to confirmation on his passing the Examination to be held in June 1912. I request that you will be so good as to obtain the sanction of Government to the proposal.

3. There is provision in the current year's budget for the appointment of a District Sanitary Assistant on Rs.80/-

I have the honor to be,
Sir,
Your most obedient servant,

O. V. Aiyyathurai

Offg. Sanitary Commissioner.

P.H.

Letter No. 712 dated the 23d March 1911 from the Dist. Sanitary Officer, Kadur District to the Sany. Commr.

With reference to your docket No. 3130 dated the 10th January 1911 instructing me to consult and obtain the definite consent of the Deputy Commissioner in regard to vesting Mr. Girimaji Rao, Deputy Inspector of Vaccination with duties pertaining to general sanitation, I have the honor to inform you that I was asked to specify the nature of duties that it was proposed to entrust the Deputy Inspector with. I explained that a definition was difficult, that it would be practically amount to the Deputy Inspector doing such duties as may be requisitioned by the District Sanitary Officer, and therefore by the Deputy Commissioner, but roughly however the proposed work could be summarised as follows:-

(1) The collection of statistics in connection with the depopulation of malnads.

(2) Inspection of the general sanitation of villages with particular attention towards any suggestions that might have been offered by the District Sanitary Officer in his previous inspection.

(3) Supervision of works in connection with improved sanitation, for which funds have been sanctioned particularly in areas which are not served by Sanitary Inspectors.

(4) Enquiring into the State of of Public Health in the District e-g. the incidence of and mortality from diseases like Enteric, Dysentry, Diarhoea etc which are not reported by patels, Sanitary Inspectors or Hospital Assistants.

(5) Being in charge of the current duties of the District Sanitary Officer, when he is absent on short leave or deputation. x x x x x

"Extract" Ham ava Aiyar

For Offg. Sanitary Commissioner.

Letter No. 499 dated the 23rd Dec. 1910 from
the Dist. Sanitary Officer, Kadur Dist to the Sanitary Commr.

The present Deputy Inspector of Vaccination, Kadur District, has recently undergone a course of training in sanitation at the Madras Medical College, and missed being appointed District Sanitary Assistant, by failing in " Sanitary Engineering ".

The exceeding unhealthiness of this District, needs sustained and vigorous efforts at securing better sanitation, to effect any appreciable improvement. The Deputy Inspector of Vaccination is a Sanitary Officer in the sense that vaccination is a sanitary measure and that he is expected to do some amount of work pertaining to general sanitation along with his more definitely duties. An earnest and painstaking officer of the stamp of Mr. Girimaji Rao could turn out very useful and important work if vested formally with more responsibilities than his rank alone would seem to imply.

I have therefore the honor to request that he may be explicitly instructed to do either Sanitary or Vaccination work as may be required by the District Sanitary Officer, who would be expected to see that the latter branch of work did not suffer thereby.

This would bring the Deputy Inspector of Vaccination more within the sphere of the Deputy Commissioner of the District.
